## The #1 Social Issue in the United States is Fatherlessness

### *Meet Sean Teis:*

For over a decade Sean Teis, founder of Life Factors Fatherless Ministries, has been evangelizing & discipling fatherless families through speaking, creating unique resources, and partnering with local churches. Sean grew up fatherless, had a single mom, and his grandparents helped raise him, and despite his situation he became an ordained minister, is a national speaker, an author, and has held various ministry roles but all with a continual focus on fatherless family ministry. Recently he traveled around the country for around 3 years, with his wife and their three children, on what they called **The Hope for Fatherless America National Tour** speaking on fatherlessness in 150+ churches, plus conferences, youth detention centers, public schools, Christian schools, and other venues. Their ministry provides churches around the country with online training, digital and physical resources needed to effectively evangelize and disciple the fatherless families in their church and community. He is currently also launching local **God is my Dad Chapters** for ministry to fatherless families in Las Vegas, NV and Dickson, TN.
